CHICAGO, Aug. 2.-The grave diggers are

those circumstances on the minds of the ers firm and confident. men who desire to go on with their work, than a small gathering, peacefully per-

"Now the point of the 'nearness.' There is no line, the injunction lays down no Giving General Gobin and His State line, but it does say you must not get close enough and act in a body of men in such way as to intimidate or interfere with those people who desire to work. In other words, you must not make them afraid; you must not do things that will cause them to fear the consequences, to leave The town and surrounding country contheir work or to be deterred from doing their full duty as they may see it. "Now I say these things, not as indicating any view that I may hold with regard | troops are kept in this vicinity. There was to what has been done here, but I thought, as so many of you were here, and as necessarily this matter will be laid over, brief words to you what I conceive to be the true rule for the interpretation of these

that it was well enough to say in a few | into the place from outlying settlements as injunctions; it is not an interpretation; it is only a rule, because, as I say, I advance one and gave the police or provost guard no particular circumstances existing at the time, and it is idle for any one to attempt to lay down the limitations of such a paper. It depends altogether on the circumstances. It depends on many things that you can only intelligently determine at the time when they occur.

"I hope that you will take all I have said in the very kindly spirit in which it is intended, and that you will try, intelligently try, not to put yourselves in the attitude of contemptuous disobedience of the orders of the court."

LAW SAID TO BE VIOLATED.

Certificates to Nonunion Miners Improperly Issued.

WILKESBARRE, Pa., Aug. 2.-The leaders of the striking miners promise to spring a surprise in a few days. They claim that after an investigation they find that miners' certificates are being issued contrary to law and that the recipients of the certificates, many of whom, it is alleged, never saw the inside of a coal mine, are being occurs the troops shall not be the cause pressed into the service of the coal companies. In this way, it is claimed, the companies are increasing the number of their employes. The new men, while they may not be able to mine coal, can load it. The bosses can do the mining. Between for a similar occurrence, and if the offendthe two it will be possible for some of the ers are caught it is the commander's inmines to resume work on a small scale. The strikers claim that the certificates are not being issued by mine examining boards, but by some person or persons who have access to the official papers. Criminal commanders are ordered to hold school

prosecutions are promised. The controversy betwen President Mitchell and the Citizens' Alliance is growing in bitterness. The alliance made reply to-day to the letter published yesterday by Mr. Mitchell. Stripped of some of its personalities, the letter reads:

"Mr. Mitchell: You decline to say in behalf of the union and yourself that you condemn boycotting, rioting and violence perpetrated to prevent men from working. Indeed, you leave the distinct and unpleasant impression that you do not condemn those things. If you were sincere in your frequent protestations against lawlessness, you would not refuse as you do refuse to proclaim, as we requested, your positive, pointed and specific condemnation of that worst type of lawlessness which undertakes to prevent men from freely working for whom they please and upon such terms as they please; nor would you pour vials of wrath upon an organization which we admit has no such foolish aim as to suppress 'lawlessness on the part of all who are guilty of its commission, but does aim to suppress that same worst type of lawlessnes which thrives upon the fear of its victims to protest, and of civil authority to protect, against its perpetration. You are credited with having said that you 'deprecate lawlessness committed any one, and particularly by men on strike,' which stripped of its hypocrisy, simply means that you object to law-breaking because it hurts the strikers, and not because it hurts

So far as the alliance is concerned, it announces that the controversy is now closed. Grand Chief P. H. Morrissey, of the Brotherhood of Rallway Trainmen, has sent a letter to one of the local officers of the order, in which he says that practical assistance will be accorded to the striking miners at the opportune moment. He does not favor sympathetic strikes, but admits that the executive officers of the various brotherhoods have agreed on a plan, the nature of which has not been disclosed. The following official statement has been issued from strike headquarters: "The anthracite regions find strikers firm and unylelding. West Virginia men are still firm. Judges Jackson and Keller have enjoined the strikers from doing anything

The mine workers' officials take no stock in the reports of an early resumption of work, and assert that these rumors are put in circulation by company officials to influence the mine workers into breaking the strike. District President Fahy, of this district, reiterated the statement that the men will not return until the strike is declared off by President Mitchell and National Member Miles Dogherty, who returned to Shamokin this afternoon. Mr. Fahy, following out instructions from President Mitchell, is making every effort to have the striking mine workers maintain peace. He said today that all persons in or out of the or-

with the three workmen when the riot | Battle of Agua Dulce the Sole Topic

PANAMA, Colombia, Aug. 2.-Since yesterday the battle at Agua Dulce has been to the town lockup. He will be given a the sole topic of conversation here. Both Liberals and Conservatives anxiously await the result of the engagement, which will go into history as one of the bloodiest ever fought in Colombia. General Morales Berti is among the most brave and experienced generals of the Conservatives. He has from 3,000 to 3,500 fine soldiers and his forces are

General Herrera is undoubtedly the best military leader the revolutionists have. Personally, General Herrera is said to be courageous and a great organizer. It is believed he has not over 4,000 men, but the terrific charges upon the entrenchments about Agua Dulce made by his troops anything therein. General Herrera shall win the scene will be repeated here, for General Salazar, Governor of Panama, who made his mark in the defense of Panama, July, 1900, has 2,000 men strongly entrenched and says he will fight as long as his ammunition and soldiers last. A government victory at Agua Dulce would, it is generally believed, mean the end of the revolution.

THE COLOR OF WATER.

Its Varying Shades Are Due to Two

of securing a contract here, and in case they strike all four districts will stand to-Recent investigations of natural color in water show that it is due to two distinct causes-vegetable stain and suspended matter. When the latter is present in appreciable quantity it causes turbidity and is however, and a coach-load of strike-breaknot a real pigment. The true color or veg- ers from the East, who were brought in | is the gospel of West Point. lis at local headquarters of District 9 of | brown, and is due to decayed plant growth; the suspended matter is generally mineral and often contains iron. The color acquired by water at the bottom of a deep pond is largely due to this cause. Experts have adopted a method of stating the depth of color in water by comparison with a mixture of platinum and cobalt, the color produced by one part of platinum to one million parts of water be-

> ing taken as the unit. Thus it has been shown that the color of surface water depends both on the character of the neighboring vegetation and on the time that the water remains in contact with it. Water near steep rocks, where there are few trees, will generally be below twenty units in color; steep wooded or cultivated slopes give twenty to fifty units; similar but gentler slopes from five | tween Seattle and the Idaho state line. This to one hundred, and swamp areas, one hundred to five hundred, or even higher. Highly colored waters are more common in the Northern States than in the South. Colored water is gradually bleached by sunlight, the action taking place chiefly within one foot of the surface. The study of color in water is of commercial importance, because most people object to drinking brownish | He was not interfered with, and to-day it water. Hence, in a town water supply the color must either be removed or its formation must be prevented. The latter is often | morning, having passed east after having a the most economical thing to do, and it may be accomplished by intercepting the whose horses he had frightened. To-day water from the uplands and leading it two sheriffs' posses are in pursuit. Efforts into the streams without letting it pass through the swamps.

Filtering through sand will not remove Indian reservation. the color from water, and even clay will take it out but partially. Generally the water must be altered chemically, as by mixing with sulphate of aluminum, which coagulates the coloring matter. The color may also be removed by oxidation, as with permanganate of potash, or by ozone, but this method is not much in use at present. The question is largely one of esthetics, as natural coloring matter in water is rarely harmful.

One man was overcome by gas while ascending in the cage to the surface, fell from the cage and was killed. The company has been compelled The strike of the bridge and structural to close down the mine and smelter. It is iron workers employed by the Pennsylvania stated that it will be a month or probably Steel Company, which began May 1, has more before the plant will be started up been settled, and the men are back at work. again, as the men refuse to risk their lives The men were granted their demand for 50 by going into the mine.

The Kind of Man West Point Makes. Frederick Palmer, in The World's Work.

Railway to-day on account of the refusal of the management to recognize the union and There is no jealousy of the classmate who to reinstate discharged men. One hundred and fifty men are affected. The strike will rises by merit. At the mention at the alumni meeting of the name of Brigadier close the line from Guyandotte, W. Va., to General Franklin Bell, a first lieutenant of cavalry at the outset of the Spanish The Union Pacific strike situation at war, men who had once ranked him cheered Cheyenne, Wyo., is growing more serious, with a whole heart. They knew the man Shortly before noon yesterday thirty-five and knew that he had worthily won his blacksmiths and helpers walked out, restar. The most unpopular brigadiership of fusing to accept the piecework system inrecent times was not that of either Wood stituted by the company yesterday. Railor Funston, nongraduates, but of a gradroad officiels had anticipated the strike, uate who was honored for a name and not for the work he had done. Work! That vesterday, were immediately put to work

Once he is through the four years' drill the cadet's pride in it begins and grows from year to year, until it is a memory more precious than all his honors. At eighty it surpasses description by an outsider, who can only refer you to General Longstreet and others. The alumni, as is the custom at commencement time, slept in the cadet quarters, each sharing his old room with his old mate where possible. At 2 a. m., when one who was past seventy was still playing boyish pranks, he was asked by a younger man if he did not intend to take any sleep. "Sleep!" he replied, "sleep now? I'll have time enough to sleep during West

Point's next centennial."

the Northern Pacific Railway midway be-Severe Electrical Storm. OMAHA, Neb., Aug. 2.-The worst elecwould seem to confirm the report that trical storm this vicinity has ever experienced began about 8:30 to-night and Tracy is making his way to the "Hole-incontinued until 12:30. At one time the fire department was at work on four fires, and When Tracy rode through the main street not less than a dozen places in the city were struck. The re losses are small, exof Coulle City last night he was leading a cept in the case of the Omaha Milling second horse and kept away from the light. Company, whose loss from fire and water will aggregate about \$25,000.

Charged with Manslaughter.

ROCHESTER, N. Y., Aug. 2.-Conductor Frank De La Vergne and Engineer Daniel Donnelly, whose criminal negligence is alleged to have resulted in the disastrous wreck on the Lehigh Valley Railroad on Sunday, July 20, have been arrested on warrants issued by Coroner Kleindienst, charging them with manslaughter. Both men have been released on bail in the amount of CRESTON, Ia., Aug. 2.-A stranger re- \$2,000.

Return of Whitelaw Reid. NEW YORK, Aug. 2.-Whitelaw Reid and

barber shop at Alton to-day and with Mrs. Reid were among the passengers on drawn revolvers compelled the eight octhe steamship Philadelphia, which arrived to-day from Southampton. Mr. Reid, who cupants in the place to line up against the wall while he took possession of the tolls appeared to be in the best of health, said he would have to report to President Rooseand compelled the barber to shave him. The fellow was wounded in the side and revelt on what had occurred during his visit fused to lie down. He sat upright, nervous- to Great Britain before he could say any-Killed by Explosion in a Mine.

TRINIDAD, Col., Aug. 2.-George E. Greenfall, George Parker and George Mason were killed and E. H. Keller and W. A. Galbraith were injured by a gas explosion to-day at the Broadhead mine of the Las Animas Coal Company at Aguilar, Col. The men were pumping water from an aban-

doned shaft when the explosion occurred.
